

Extensive skills training, safety, and unmatched levels of productivity have brought our members fair wages, good benefits, and dignity in work and retirement since the Brotherhood was founded in 1881. The United Brotherhood of Carpenters & Joiners is an elite group of professional crafts men and women with the skills that are demanded in today's construction industry.

CARPENTERS' APPRENTICE READY PROGRAM 2023

The Pittsburgh Training Center is the premier place to learn one of the following trades:

- General Carpentry
- Floor Covering
- Pile Driver
- Heavy Construction
- Millwright
- Cabinetmaker/
Millworker

Established in 1945 through the U.S. Department of Labor, we have long been the area's leading center for apprenticeship and journeyman education. Through a four year, formalized, registered apprenticeship program approved by the Commonwealth of Pennsylvania, apprentices receive more than 800 hours of related technical classroom instruction and up to 7,200 hours of on-the-job practical training to achieve journeyman status.

CARPENTERS ARE ESSENTIAL TO BUILDING JUST ABOUT EVERYTHING – FROM BUILDINGS AND HOUSES TO HIGHWAYS, BRIDGES, AND POWER PLANTS.

As their training progresses, apprentices earn more experience until they become full carpenters, called "journeyman."

Carpenters cut, shape, erect and install building materials during the construction of buildings, ships, timber bridges, concrete formwork, and more.

Carpenters' Apprentice Ready Program 2023 will identify and educate prospective Pittsburgh area residents that have existing barriers to employment with the four trades taught at the Pittsburgh Training Center. Classes will include instruction to prepare folks to complete the intake process making them eligible to be a Philadelphia Carpenter Apprentice.

- Carpentry
- Floor Covering
- Pile Driver
- Heavy Construction
- Millwright
- Cabinetmaker/Millworker

Do you enjoy working with your hands? Do you like working as part of a team? Carpenters are able to adapt to a variety of working conditions, take a sense of pride in their work, and apply themselves diligently in order to become a skilled craftsman. Applicants should possess above average manual dexterity, coordination, and balance. Carpenters work both indoors and outdoors, and the work is physical by nature.
